

Dottorati in rete / PhD network

Per rispondere all'esigenza di rafforzare la formazione in ambito economico-agrario, attraverso un maggiore collaborazione tra le varie scuole italiane di dottorato che si occupano, anche in modo non esclusivo, di economia agraria e applicata, l'AIEEA ha proposto la condivisione delle informazioni sui seminari e corsi nelle varie scuole e/o altre attività formative proposte dai soci dell'associazione. Di seguito sono riportate le segnalazioni dei corsi finora pervenute. Chi fosse interessato a partecipare può direttamente scrivere alla persona di contatto. Sono benvenute ulteriori segnalazioni da parte degli organizzatori dei corsi/seminari. L'elenco sarà aggiornato periodicamente.

In order to face the need to strengthen training in the agricultural and applied economics fields, improving the collaboration between the various Italian PhD school on agricultural and applied economics, the AIEEA promotes the sharing of information about seminars and short courses, which are suggested by the AIEEA members. The following table reports the list of courses we have received so far. People interested in attending these activities can directly write to the contact person listed in the last column of the table. The suggestions from organisers about further seminars or short courses are more than welcome. The list will be updated periodically.

Title	Teacher	Date and time	Venue	Contact Person
