Dear Margherita:

In the name of the members of the German Association of Agricultural Economists (GeWiSoLa), I would like to express to you as the current President of the Italian Association of Agricultural Economists our deepest sympathy with you and the members of your Association concerning the sudden death of Giovanni Anania. This is a huge loss for the Italian group of agricultural economists, but also for all of us in the European and international community of agricultural economists. Many members of the German Association of Agricultural Economists have known Giovanni personally, as we both do, and quite a number of colleagues worked with him in the EA AE, in projects and in other institutional settings. We valued the warm personality of Giovanni as well as his professional knowledge and skills very highly and we will miss him.

Best regards,

Prof Dr. Roland Herrmann
(President of GeWiSoLa e.V.)
